

We goofed.

We hate making mistakes, particularly when they lead to you making a mistake. We scrupulously edit all our patterns, but when an inaccuracy does slip through we post a correction as quickly as possible.

Corrections for this book have been compiled in this PDF. Any pages with errors have been completely redesigned; you can print and then insert the corrected pages in your copy of the book. If we're aware of an error, we fix it before reprinting a book, so your edition may already include these changes. Scroll to page 2 of this document to view the corrections.

The corrections listed here should allow you to complete your project with ease. If not, give us a call at 800-426-3126 and we'll do our best to help. And again, many apologies for the error.

Use a scant $\frac{1}{4}$ "-wide seam allowance throughout. For detailed instructions and illustrations on the following techniques, refer to "Making the Blocks" on page 26.

1. Pair a 5" accent square with a 5" background square and make eight half-square-triangle units as described in "Half-Square-Triangle Units: One Size Fits All" on page 9. Trim the half-square-triangle unit to 2" square. (You'll have four matching units for this block and four units for another block.)
2. Referring to "Triangle Corners" on page 8, draw a diagonal line from corner to corner on the wrong side of four 2" background squares. Place a marked square on one end of a medium/dark rectangle. Stitch along the marked line and trim, leaving a $\frac{1}{4}$ " seam allowance. Make four star-point units, making sure the direction of the line is the same on all four units and that it matches the diagram on page 26.
3. Lay out the four star-point units, four half-square-triangle units, and four remaining 2" background squares as shown in the photo on page 28. Sew together one background square and one half-square-triangle unit; then add a star-point unit to complete a quadrant. Make four quadrants.
4. Join the quadrants into rows, and then sew the rows together to complete the block. Refer to "Collapsing Seam Allowances" on page 12 to press the seam allowances in opposite directions so that the center lies flat. The block should measure $6\frac{1}{2}$ " square. Repeat to make a total of nine blocks.

ASSEMBLING AND FINISHING THE QUILT TOP

For detailed instructions and illustrations on the following techniques, refer to "Assembling the Quilt Top" and "Finishing the Quilt Top" on page 27.

1. To piece the sashing strips, divide the 2" x 5" light strips into one set of 20 strips and one set of 24 strips. Sew each set of strips together end to end to make a sashing strip. Press the seam allowances open. Make one strip about 90" long and one strip about 108" long.

2. From the 90"-long strip, cut 12 sashing strips, 2" x $6\frac{1}{2}$ ".
3. Join three blocks and four sashing strips from step 2 to make a block row as shown in the photo. Press the seam allowances toward the sashing strips. Make three of these rows.
4. Measure the length of each block row; they should measure $24\frac{1}{2}$ ". From the 108"-long sashing strip, cut four strips to that length.
5. Join the block rows and sashing strips from step 4 as shown in the quilt layout diagram (page 27). Press the seam allowances toward the sashing strips. The quilt top should measure $24\frac{1}{2}$ " x $24\frac{1}{2}$ ".
6. For the inner border, sort the $1\frac{1}{2}$ " x 5" medium/dark strips into four sets of six strips each. Sew each set of strips together end to end to make four long strips. Press the seam allowances open. The border strips should measure $1\frac{1}{2}$ " x $24\frac{1}{2}$ ".
7. Sew two border strips to the sides of the quilt top. Press the seam allowances toward the inner border. Join 2" accent squares to the ends of the two remaining border strips. Press the seam allowances toward the border strip. Sew these borders to the top and bottom of the quilt top and press the seam allowances toward the inner border.
8. For the outer border, sort the $2\frac{1}{2}$ " x 5" light strips into the following groups:

- **Side borders:** two groups of six strips each
- **Top and bottom borders:** two groups of seven strips each

Join each group of strips end to end to make four long strips. Press the seam allowances in one direction (or press them open). For the side borders, trim the two shorter strips to measure $2\frac{1}{2}$ " x $26\frac{1}{2}$ ". For the top and bottom borders, trim the longer strips to measure $2\frac{1}{2}$ " x $30\frac{1}{2}$ ".

9. Sew the border strips to the sides, and then the top and bottom of the quilt top, keeping the pinked edges on the outside. Press the seam allowances toward the outer border.
10. Refer to pages 15–17 for finishing your quilt, or take it to your favorite long-arm quilter for finishing. Using the 2"-wide binding strips, make and attach binding.
