

We goofed.

We hate making mistakes, particularly when they lead to *you* making a mistake.

We scrupulously edit all our patterns, but when an inaccuracy does slip through we post a correction as quickly as possible.

Corrections for this book have been compiled in this PDF. If we're aware of an error, we fix it before reprinting a book, so your edition may already include these changes.

The corrections listed here should allow you to complete your project with ease. If not, give us a call at 800-426-3126 and we'll do our best to help. And again, many apologies for the error.
